Under the Power key, there is a system reset key which default status is "ON". If system is crashed, turn the key to the position of "OFF" with a needle object then turn it back to "ON".

03 | Installation Diagram

Install Device with 1 screwdriver within 5 minutes

Tips:

- When fastening the outdoor camera, attach bolts into its poles first
- When fastening the LCD Screen, align it to the notch of the bracket, its magnet will attach to the bracket automatically.

04 | Installation

1. Select the bolts depending on the door thickness, then screw them to the outdoor camera.

Peel off the protective film off the adhesive strips.

3. Pass the ribbon cable through the door hole.

Tip: It will be easier to wrap the ribbon cable in a paper tube first then pass through.

4. Tighten the outdoor camera.

5. Pass the cable through the bracket indoor.

7. Align and screw the bolts to the bracket and fasten

6. Attach the bolts through the bracket after lightly tugging up the ribbon cable.

8. You may use a rubber band as pictured to secure the ribbon cable.

9. Pass the ribbon cable through the rubber band as pictured, then plug it onto the back of the LCD monitor.

10. Slightly press the cable head into the port as pictured.

11. Suspend the LCD monitor on the bracket from top to bottom, its magnet will be attached automatically.

12. Press the Power key for 5 seconds to turn on/off your doorbell.

End Ship Mule

00:00:08

After binding your door viewer with the app, use the play button on your smartphone enjoy the device.

You can swipe around the screen for more details when viewing your real-time video or you can hold your smartphone in landscape orientation for a full view.

06 Applicable Door Thickness

Applicable door thickness: 1 4in - 4 3in (35mm ~ 110 mm)

Applicable peephole: 0.6in - 2.2in (14mm ~ 50mm)

When choosing bolts to install the outdoor camera, you must know your door's thickness.

Notes:

For the door thickness between 1.4in - 2.6in (35mm ~ 65mm), choose 1.4in (35mm) short bolts;

For the door thickness between 2.6in - 3.7in (65mm ~ 95mm), choose 2.6in (65mm) long bolts;

For the door thickness above 3.7in (95mm), use your own M3 bolts around 3.2in (80mm).

07 | Safety Guideline

- Try to avoid placing the device in high-temperature, high humidity, dusty or other harsh environments as this may reduce its lifespan.
- Don't forcibly squeeze the camera lens and the black ball on the top of the outdoor subcomponent; otherwise it can cause hardware damage.
- Treat the ribbon cable with care during installation, don't forcibly drag, scrape or cut the ribbon cable. (The device will be out of warranty if it is damaged by inappropriate installation.)
- Make sure you use the charger that is included in the package. Unqualified chargers might cause damage to the device.
